Tiger Stone

Jade

Rose Quartz

Amethyst

With our new collection *Valley* allows you to harness the power of Crystals in your home. Crystals provide Good Vibrations; the theory behind the power of crystals is that each of these special gems contains an electromagnetic charge and gives out certain “vibrations”, due to the unique way their atoms move and interact. Crystals are said to be able to remove energy blockages around the body and help us to realign our energy channels if needed. This is all part of the commonly referenced healing effect. Crystals are one of the most beautiful wellness accessories you can own, and by partnering with sustainably sourced Solar Stones, *Valley* has created beautiful hand crafted Crystal Drain Covers. Allowing you to bring the Beauty and Positive Energy of Crystals in your own home. You can request your own custom stone creations and purchase different drain covers for your sinks and shower bases to customize your healing.

Amethyst

Amethysts are said to have several physical healing properties, including: enhancing the immune system, improving endocrine function, improving the skin's appearance, promoting digestive health, reducing headaches, regulating hormones.

Jade

Jade crystal has the ability to transform negative energies into positive ones that promote joyfulness and love. Calming and harmonious, the stone also can help you heal from emotional and physical injuries and illness.

Tiger Stone

A stone of protection, Tiger Stone may also bring good luck to the wearer. It has the power to focus the mind, promoting mental clarity, assisting us to resolve problems objectively and unclouded by emotions. Particularly useful for healing psychosomatic illnesses, dispelling fear and anxiety.
