Valley's Floral Collection

In collaboration with Seema Chadha known as the Floral industries Fleur Goddess. Valley has created an awe inspiring collection of beauty inspired by Cleopatra's Milk Baths. Creating a beautiful Milk coating with our Shila Stone, we have preserved beautiful floral and foliage reminiscent of a beautiful Floral Milk bath, that we imagined would be fit for a Queen.

By creating these beautiful works of art you can bring a piece of that Serene picturesque beauty to your own home by embellishing your Basins by adding a touch of Floral to your drain covers, or your stone Shila Stone Walls or Shower bases. Each Design is hand crafted by a Canadian Artisan therefore no two pieces can be 100% exactly the same.

Currently available in: Rose, Lavender, Peonies, Daisy, Saje, and Eucalyptus.
