

DESCRIPTION:

With the ALLAIRE freestanding module, you'll have the freedom to choose from Valley's vast faucet collection and deck-mount it on this module, instead of limiting yourself to only freestanding fillers. This module can also be used to install an air massage system without having to redesign your existing freestanding bath. Conceal any piping from existing or new massage systems within this spacious module, and keep your bathroom looking clean and pristine. ColourMe, Marble finish allows you to customize this practical module to fit your design portfolio.
