THE VALLEY ACRYLIC EXPERIENCE

Delivering amazing, unique, designer products to our customers is our goal & our passion at Valley Acrylic. We strongly believe that for every person there exists a luxury bathroom that fits them perfectly & we see it as our responsibility to help them realize that dream! That is why at *Valley Acrylic*, we create stylish, long lasting designer products tailored to whatever needs our customers require. With a focus on Canadian quality, innovation, & environmentally friendly product lines, we provide the international bath market with functional art that makes the bathroom your canvas to express your creativity.

Shila Stone is our solution to creating luxury bath products locally. Shila Stone products are perfect for the home, as well as high traffic areas such as hotel & high rise projects due to their enhanced durability, longevity, hygienic & environmental sustainability, in addition to the material's absolute ease of maintenance. Shila stone is highly adaptable & capable of being pour-molded into any design we can dream up!

WHAT IS SHILA STONE?

Shila Stone is a Valley Acrylic signature material available in many of our Canadian-made product lines! Our in-house team of artisans creates this composite material by utilizing excess acrylic fill from our enviro-seal zero-waste recycling program. This process is helping to turn all of Valley Acrylic production green as we divert thousands of pounds of waste from landfills to create new, durable, sustainable designer products for our customers.

VALLEY

FEATURES OF SHILA STONE

Shila Stone is far stronger than traditional acrylic bathware. Using our unique formula, Valley Shila Stone is an extremely durable composite resistant to staining, cracking or scuffing. In addition to its strength, Shila Stone is entirely nonporous! This means that Shila Stone products are long lasting & hygienic, with a natural resistance to the build-up of mold, mildew & bacteria. With its Ultra-sheer gloss finish, Shila Stone is easy to maintain & clean with as little effort as a light wash of hot water and a light, non-abrasive cleanser! Or a light abrasive pad for cleaning matte finish.

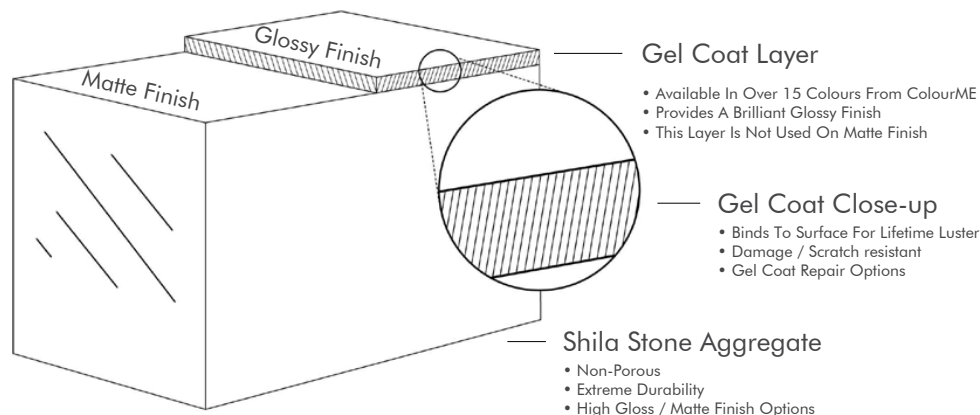

COLOR ME

"Every product, hand painted by a Canadian artisan!"

Available in both Ultra-sheer gloss & matte finish; choose from our Colour Me artist's palette & customize your experience by adding a pop of brilliant colour to your purchase in a beautiful gel coat top-layer.

Perfect for creating a **Focal Point** in any bathroom!

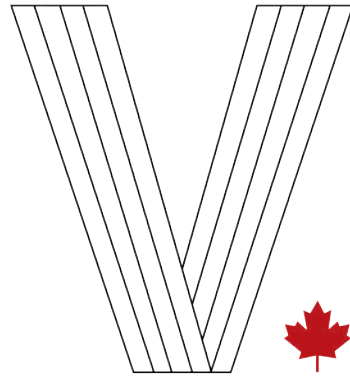

SHILA STONE MATERIAL DIAGRAM

MATERIAL BREAKDOWN

Shila Stone originated as a part of our green-manufacturing & sustainability initiative. Sourcing materials exclusively from North America, we ensure a consistent high quality product consisting of a unique blend of marble resin, catalyst & acrylic fill to create a non-porous, resilient material which can be mold-poured into any shape you can imagine, and cured within 1 day to create a finished product. Our innovative recycling process diverts hundreds of pounds of acrylic waste from entering landfills each year, as well as reclaiming the water and energy that went into creating the original materials by breaking down excess from production. Our Shila Stone products are designed & hand crafted by Canadian artisans who pay close attention to every detail. It is our goal to ensure that every product we make is something that we, and you would be proud to own.

VALLEY®

...you dream it, we create it
