DESCRIPTION:

Please note: Controls and rocks are sold separately. Contact us to determine the best configuration for your setup.

Proudly manufactured in Canada, the Apex Sauna Heater by Homecraft represents the pinnacle of modern sauna technology—blending striking design, advanced engineering, and exceptional performance to elevate your sauna experience. Built with precision and premium materials, the Apex delivers consistent, powerful heat while complementing the aesthetics of contemporary wellness spaces.

True to Homecraft's reputation for quality, the Apex is constructed entirely in Canada by dedicated sauna enthusiasts. Its design prioritizes both durability and efficiency, featuring a protected element air chamber that shields key components and enhances longevity. The heater's structure channels heat directly into the rock mass, ensuring a rich, even Löyly and a truly immersive sauna session.

Engineered for performance, the Apex accommodates 310 lbs of sauna rocks and is crafted with premium stainless steel components for maximum reliability and visual appeal. Whether for home or commercial use, it's the ideal choice for those who demand both form and function.
