

SAUNA KIT INSTALLATION

Our sauna kits are designed for installation in a pre-framed, insulated room, whether indoors or outdoors. No drywall or cement board is needed. Simple to install and built for convenience, these kits are a great choice for anyone looking to create their own custom sauna space at home.

DESCRIPTION:

Each standard home sauna kit comes complete with premium materials and essential components for a beautiful, functional sauna installation:

- **1 Homecraft sauna heater** (CSA approved), complete with digital control and sauna rocks
- **Western Red Cedar panelling** (A+ Better, clear, kiln-dried, tongue-and-groove) for walls and ceiling
- **1 cedar door** with all required hardware, designed for a **26" x 78"** rough opening
- **Upper and lower cedar benches**
- **1 sauna thermometer**
- **2 vapour-proof sauna lights** suitable for wall or ceiling installation
- **Aluminum foil vapour barrier** for walls and ceiling
- **1 cedar heater guard fence**
