	DESCRIPTION	MODEL NUMBER	LIST PRICE
	<p>¾" SET BACK WOOD APRON</p> <p>The skirt is removed and a ¾ plywood piece is used as the skirt (or "apron"). The plywood is reinforced on the back with fiberglass and has a rough finish at the front. This is a great option if you are looking to tile over the front face of the tub for a modern look.</p>	C1	\$515
	<p>¾" SET BACK WOOD APRON WITH REMOVABLE ACCESS PANEL</p> <p>The wood skirt will act as the cut-out for where the access panel will be. The panel is removable and ready for tiling. This option is great for those who are looking to create concealed access to the plumbing within the tub. This is especially recommended for when you are incorporating jetting systems into your skirted tubs.</p>	C2	\$515
	<p>SKIRT CUT-OFF</p> <p>This option is available only for skirted bathtubs. With this option, the skirt (or "apron") is completely removed. A great option if you want to build a custom skirt, or need to create access for plumbing purposes.</p>	C3	\$131
	<p>TEXTURED BOTTOM</p> <p>This option provides a non-slip surface, featuring a moulded-in floor pattern of a fine grid of raised areas on the bottom.</p>	C4	\$263
	<p>DOUBLE TILING FLANGE</p> <p>In this option, the tiling flange is heightened so the tiles can sit on a ¾" raised acrylic platform from the tub rim. This is different than a single tiling flange, which allows the tile to sit directly on the rim of the tub. With a double tiling flange, the water cascading down the walls sits on an acrylic channel and prevents build-up of moisture. This will require far less maintenance over the years.</p>	C5	\$158
	<p>12FT. ADD-ON TILING FLANGE</p> <p>A separate 12-foot-long tiling flange that can be purchased with any product to be used with a tub or shower base. Only comes in one length, but can be cut down to preferred size by the installer.</p>	C6	\$74
	<p>INTEGRAL MOLDED TILING FLANGE</p> <p>This option is available for selected drop-in bathtubs. The acrylic tiling flange is moulded within the bathtub and becomes an integral part of the bath shape. Great option if you purchased a drop-in tub that needs to be installed into an alcove setting.</p>	C7	\$389
	<p>INTEGRAL ARMREST</p> <p>A parallelogram design arm rest that's available for selected drop-in bathtubs (only end drain, not center drain). This is integral, so it will be moulded into the tub itself for arm support purposes.</p>	C8	\$368

LIST PRICE

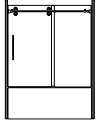

Valley labels all shower door packaging with caution labels, to warn carriers to keep glass doors upright at all times during transit. However, it is difficult to guarantee that all carriers abide by this rule. To avoid mishandling or damage during shipping, we can palletize your shower door and create a stand that will hold it upright during transit.

AIR JETS: BENEFITS OF AIR MASSAGE

In an air jetting system, an air blower pushes air through multiple jets strategically installed within the bathtub. Air is pre-warmed to body temperature through a heating element within the blower for additional comfort. An air massage system relaxes your muscles, and also stimulates the production of natural analgesic hormones known as endorphins. Variable speed settings means you can choose the pressure that best fits your needs, whether that's a soft and caressing effect or a more vigorous pressure. Valley's air jetting systems offer incomparable therapeutic benefits and ultimate physical relaxation.

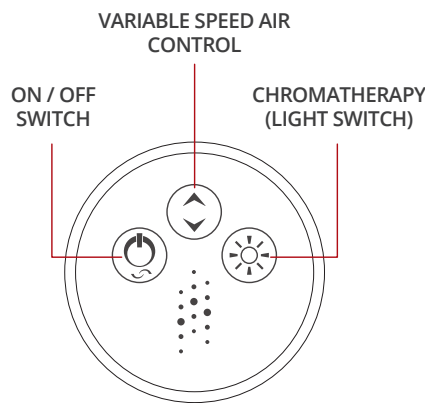

Valley's unique Air Jet System comes with a 600 watts heater blowing hot air into your bath. The air massage completely surrounds your body offering a thorough massage with millions of preheated air bubbles that surround every part of your body.

Simply enjoy your air massage bathtub without worrying about hygiene. Each and every time the system is used, an automatic purge cycle will clean and dry your jets with very hot air and make sure that everything is perfectly clean time after time.

No water circulates or remains stagnant in the air hoses, so no worries about proliferation of bacteria or molds.

AIR JET CONTROL PADS

Air Jet options will come with a Round White control pad

WATER JETS: BENEFITS OF HYDROMASSAGE

In a whirlpool (water) jetting system, the water inside the tub is sucked by the whirlpool pump and redistributed through the water jets installed in the walls of the bathing shell. Hydromassage is the method of massage with water. Each human being is unique and may have different needs for their personalized hydromassage system. By considering your age, physical condition and daily activities, you can determine which system is the best for you! Water jets allow a thorough massage and relieves everyday tension. It helps to eliminate accumulated toxins in our body, such as lactic acid. Hydromassage is also great for those recovering from intensive training, working out, or muscular injury.

WATER JETS CONTROL PADS

Take charge of your massage. The air pressure is regulated by two manual air controls and an electronic system controls the water flow.

The V-MASSEUSE offers various levels of vibration allowing the massage to deeply penetrate within your muscles.

SEQUENCES

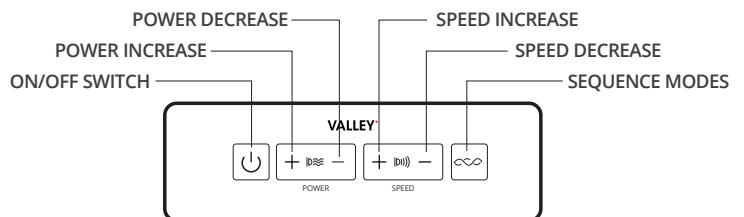

The V-MASSEUSE offers different and unique massage system that will offer a variety of massage where you need it most.

AQUA PRESSURE

With the 3 high pressure water jets, the massage will be even better as you will enjoy aqua-pressure, pulsation and vibration massages, all at the same time and always with the option to sequence the jets by zone to benefit from a more personalized massage.

V-MASSEUSE CONTROL PAD

INCLUDED

FOUNTAIN OF YOUTH SYSTEM

The Fountain of Youth air jetting system releases oxygen bubbles that are only 10 microns in diameter. Their small size allows these bubbles to fully penetrate into the skin, exfoliating impurities and removing fatty acids and odour-causing bacteria. You can experience soft and rejuvenated skin in the span of twenty minutes with this system.

OXYGEN

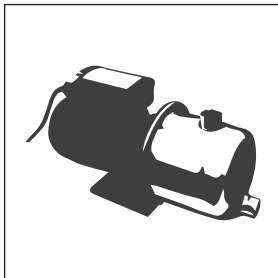

After the age of 30, skin cell production decreases noticeably. With 70% more oxygen than regular tap water, our Pure Bubbles System will increase the skin cell regeneration process and make your body feel glowing, radiant and plumped through the stimulation of your natural collagen production.

PURITY

This revolutionary treatment will clear the skin by exfoliating and removing the impurities within the skin pores. It will lighten superficial skin imperfections and pigmentation spots while naturally blending the skin tone.

ANTI AGE

Our Pure Bubbles System cleanses, hydrates, revitalizes and tightens the skin. You will immediately see a reduction of the fine lines and wrinkles combined with an improved, moisturized skin elasticity resulting in a truly rejuvenated and radiant Skin

DISCLAIMER: THE FOUNTAIN OF YOUTH SYSTEM ONLY WORKS WITH:

- 72 x 42 DROP-IN & UNDERMOUNT BATHTUBS

CHROMATHERAPY

The Chromatherapy system offers a combination of 7 basic colours and 21 blended colours to choose from. You have the option of getting one or two chromatherapy lights in chrome or brushed nickel trim. Chromatherapy is a method of harmonization and natural well-being. Each colour corresponds to a vibration with its individual speed, wavelength of rhythm.

AROMATHERAPY

Stimulate and reinforce your body's natural defense by inducing a state of relaxation and general well-being of the central nervous system through aromatherapy. You can add any natural essential oils into the receptacle filled with water. A pump leads the air towards this receptacle and an integrated diffuser projects the natural scents of essential oil into the ambient air. Essential oils such as lemon are great for improving circulation; eucalyptus for clearing your nasal passageways; and lavender for helping with insomnia. (Please note that the essential oils are not provided with this system.)
